- Facility Maintenance Planning: Barbara Thornton provided the CPC with an update on the proposed Facility Maintenance Plan and the rationale behind it. A key objective is to take maintenance from being a "black box" to a specific function. A prepared press release on the program was reviewed. This press release is intended to be issued by the Town Manager's Office. Barbara also provided a sample plan and a memorandum of an August 21 meeting on the subject.

Diane Johnson and Ruth Lewis will provide reports to Barbara to assist in the developing the next steps to the program. Ruth has a Fixed Asset report, which will provide data on past maintenance expenditures.
